Share yours! More success stories All success stories Hide success stories Quick Tips Related Articles How to Create a Facebook Page for Work How to Use Facebook How to Add Facebook Like to Blogger How to Advertise on Facebook . In order to accelerate that process, Facebook has added the feature of adding video ads in the midst of the video earlier this year. 2 Click . It's a link at the bottom of the screen. In order to set this feature up, follow the guidelines. The first step in setting up Facebook 2-step verification is logging in to your account. First of all, go to the website of Facebook: need to access the page of settings in order to proceed further. At the top, there will be a sign in form. In many cases, the design of Google overall may seem really minimalistic, and this fact is just another advantage for using Gmail. This creates your Facebook account, though you'll still need to verify your email address. Home About wikiHow Jobs Terms of Use RSS Site map Log In Mobile view All text shared under a Creative Commons License. If you're prompted for a verification code, open the email address that you used to create your Facebook account, look for the code in the subject line of the email from Facebook, and enter the code on the Facebook prompt. Enter the code from the SMS in the provided field and click on the Confirm button. The last step implies specifying a couple of settings and clicking on the Save Settings button. The last step of yours will require a bit of settings configurations to be done. Doing so prompts a drop-down menu. At times, however, you get to see large objects and images that cover half the page, and this is a kind of a not good thing. How to Set Up Facebook 2-Step Verification Written by kostiantyn Leave a Comment How to Set Up Facebook 2-Step Verification 5 (100%) 11 votes If taking advantage of all settings of your Facebook accounts security is not enough for you and you want to

add an extra layer of safety, you may consider setting up Facebook 2-step verification. Type your email address/phone number in the first field, password in the second field, and click on Log In. Setting up Facebook 2-step verification is possible in the Security and Login section of the settings. Once you have accessed your Facebook account, click on the button of an arrow pointing down (look at the screenshot), located in the right-upper corner. By continuing to use our site, you agree to our cookie policy. Disclaimer: This blog is not related to, endorsed by or supported by any of the online services we write tutorials about. We just create guides to help you create a new account, sign up or even login on those websites.. If you want to use the email address that you used for your old Facebook account with your new one, you'll need to delete your account and wait for the account to fully delete before creating your new one. Help answer questions Learn more . 4 Enter your first and last name. Do it and click on Submit. Now, you should use your mobile phone for receiving code each time you attempt to log in to your Facebook account. At the end, you will be asked whether you are sure about turning the 2-factor authentication again. Thanks!
